EDUCATION

B.E. in Computer Science & Engineering: 2024 - 2028, Chandigarh University, Mohali, Punjab	CGPA : 8.43
Intermediate: 2022- 2023, St. Xavier's School, Bhiwadi, Rajasthan	Percentage: 91.6%
Matriculation: 2020- 2021, St. Xavier's School, Bhiwadi, Rajasthan	Percentage: 94%

SKILLS

Programming Languages: Java, C++, Python, JavaScript, SQL

Web & Backend: React.js, TypeScript, Node.js, Express.js, HTML, CSS, Tailwind CSS, REST APIs

Databases: PostgreSQL, Supabase, Relational Databases, MongoDB

AI / ML: Machine Learning, Natural Language Processing, AI Applications

Tools: Git, GitHub, Vite, Framer Motion

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, System Design, Agile Development

Soft Skills: Communication, Leadership, Team Collaboration, Problem Solving, Critical Thinking, Adaptability, Time Management

PROJECTS

RecyConnect — Campus Sustainability Marketplace

React.js, TypeScript, Supabase, PostgreSQL

- Built a **full-stack marketplace platform** enabling students to buy, sell, exchange, and donate academic resources.
- Implemented **secure authentication with institutional email verification and real-time messaging**.
- Designed a **transaction system with proof verification and admin dashboard** to ensure secure exchanges.

NeuroDrive-X — AI Driver Monitoring System

GitHub: github.com/varunawasthi10/neurodrive-x

- Built an **AI driver monitoring system** to detect fatigue and distracted driving behavior.
- Applied **computer vision and machine learning techniques for real-time behavior analysis**.

EchoMind — AI Mental Health Assistance Platform

GitHub: github.com/varunawasthi10/EchoMind

- Developed an **AI conversational platform** providing emotional support and mental wellness assistance.
- Implemented **intelligent interaction logic for real-time user conversations**.

HACKATHONS

Aurora 2.0 Hackathon — IIT Dharwad (Top 8 Teams)

- Developed a **Python-based geospatial monitoring system using Sentinel-2 satellite data** to detect mining activity and environmental changes.
- Implemented **time-series analysis and interactive UI visualization for mining surveillance**.

Escape The Vinci Hackathon — Final Round (GitHub: github.com/varunawasthi10/veriscope-truth-ai)

- Built **VeriScope AI**, a multimodal fake news and deepfake detection system using NLP and AI-generated content detection.
- Implemented **dynamic credibility scoring and trusted source verification system**.

CERTIFICATIONS / ACADEMIC ACHIEVEMENTS

- Become a Full-Stack Web Developer — (LinkedIn Learning) [Link](#)
- Oracle Data Platforms Foundations Associate — (Oracle) [Link](#)
- Using Databases with Python — (University of Michigan) [Link](#)
- Getting Started with AI on Jetson Nano — (NVIDIA) [Link](#)
